

Doing an Event at Hope

Meet with Rachel and share your idea

- Talk about what you want to do and why you are excited about it
- Ask any questions you have

Think about your event

- When do you want the event? How long will it be? Where will it happen?
- Do we need special permission to do it, or do we need to buy anything for it?
- How do we want to connect with God in the event?

Tell Rachel your answers

- You can email, phone call, or just see Rachel at church to tell her your answers to the questions

Communicate about the event

- We want to tell people about the event! Rachel will create a sign-up online
- We want people to hear from you! Would you prefer to record a video or be interviewed at the front of church that explains why this event is happening?

People start signing up

- People will sign up online
- You might need to tell people in person about it and encourage them to come

Get ready for the event

- You may need to gather resources or prepare tools for the event.
- Create any resources and gather any team you need for the event.

Do your event

- Take care of your team and help them feel safe and powerful
- Help them connect to God and each other
